The first Workshop on Information Theoretic Methods in Science and Engineering (WITMSE) will be held at the Tampere University of Technology, Tampere, Finland. The workshop will cover hot topics at the intersection of statistics, information theory, machine learning, and their applications. The invited speakers will present the latest fundamental results, trends, and open issues in this promising scientific field. The technical program will include plenary lectures, three invited oral sessions, and contributed posters.

Prospective authors are invited to submit full-length, four-to-six page papers in portable document format (PDF) to the WITMSE Technical Committee. All papers will be handled and reviewed electronically. All accepted papers will be published by the Tampere International Center for Signal Processing in its Proceedings and Report Series.

For up-to-date information and paper submission, please visit the Workshop web site: <http://sp.cs.tut.fi/WITMSE08/>
